

Makers of unique, all natural

BIRD TOYS!!!

Innovative toy lines made with earth-friendly materials that are stimulating for parrots, sustain the environment, and provide a livelihood for the producers.

Our toys are tree-free, and contain no plastic, glue, or toxic chemicals of any kind. Be kind to your bird and the environment-- choose Planet Pleasures toys!!

KEY FEATURES AND BENEFITS OF

BIRD TOYS!!

1.) MATERIALS: Planet Pleasures pioneered the development of bird toys made from unique, all natural and earth-friendly materials that parrots would encounter in the wild; such as palm leaf, coconut shell and fiber, and bamboo. We also concentrate on the health of your bird by using materials that contain calcium and minerals; like cuttle bone and oyster shell.

2.) DURABILITY VS. DESTRUCTABILITY: With our signature-trademarked lines of "SHREDDER" and "PARROT PIÑATA" toys, we have struck an intentional balance between toys that are destructible, yet durable. We all know that parrots love to destroy things! Toys that do not have the ability to give a bird this satisfaction quickly leave your little friends bored and looking to make an impact on something like your furniture... So these colorful and fun toys can be ripped apart, yet are designed to be durable as well.

3.) FAIR TRADE: We at Planet Pleasures are proud to say that we support over 400 families who weave our products by hand through a certified Fair Trade cooperative. This means there are no exploitive middle-men, and everyone involved with our project is paid a fair wage. We have been able to watch the improvement in the quality of their lives through the production of our bird toys. We have implemented "Master Craftsman" awards to recognize those who stand out in their talent and dedication to quality. We annually hold toy contests with awards to stimulate their creativity, and have set up college scholarship funds to enable those with outstanding ability to go to university. With Planet Pleasures' wide range of toys, we have successfully created a "win/win" situation for the parrots, the producers, and the environment!!

Parrot Pinata Spiked®

Lrg
03115

Med
03114

Sm
03113

Satisfy your parrots desire to chew and destroy things with a Parrot Pinata! It's **two** toys in one! A crunchy, hand-woven palm leaf on the outside and natural fibers and shredders tied to a rope on the inside. Parrots will spend countless hours chewing through the outside, just to find a surprising amount of chewing pleasure waiting for them on the inside. **Great for feather pluckers!!**

These "Parrot Pinatas" come in two unique designs: spiked & square. Both come in four sizes to accommodate the tastes of parakeets to macaws!
