Mrs. Cahill's Third Year Science

1. Finish Physics revision

- Chapter 40 Heat (will go over this in early Jan.)
- Ch.42 Sound (did in first year)
- Ch.43 Magnetism (did in first year)

Concentrate on definitions and experiments.

Look quickly through the questions at end of each chapter - you need not write down answers but you should know how to do them.

This should take about 2 hours maximum.

2. If you have not done so already **do all the Biology and all the Physics questions into your exam. papers back as far as 2006** – do not leave blanks – use your book to look up answers. If you are missing exam. papers remember they can be downloaded from the exam. material archive at www.examinations.ie Each paper will take between half an hour and one hour at most but you probably have some filled in already.

3. **Start Chemistry Revision –Chapters 20 to 23-** this is First year stuff again learn definitions and study experiments again this should take at most 2 hours.

All of this amounts to 6 to 7 hours work maximum spread between now and January 10th. -

Take a few days break between Christmas and New Year . Some of you will have started this work before Christmas and may not need to start back to work until January 3rd.

Should we have **Snow in January** continue with **Chemistry Revision Chapters 24 to 26 – write out answers to all questions at end of these chapters in your homework copy.**

Use copies of syllabus you have been given to tick off topics as you are happy you have revised them adequately.

Should you have lost your syllabus you can download a printer friendly version from www.loretobalbriggan.ie/science

Should you have gone home without your book you should always have a revision book at home.

Ms. Clerkin 5th Year Business Class:

Revision of chapters 1-8 from class notes.

Review Christmas test and revise the topics where you didn't get full marks.

Mr Kilgariff's Third Years

As you know, these "snow-days" and the Christmas Holidays are an excellent opportunity to catch up on work so that you are on schedule with your project when we return in January. So in January I will be expecting you to have the following;

- Prep drawings and Support Studies Pictures (not the writing) for Project One - I'm sure you have this done by now but if you don't then you can catch up over the holidays.
- All prep drawings done for Project Two (Remember you have to fill an A2 sheet so that means a minimum of 6 drawings and a maximum of 10 depending on what size they are.)

Those of you who are seriously behind schedule with your project (you know who you are!) should use this time to get control over the project and catch up by doing LOTS of drawings for your prep sheets.

This means that you should have Prep Sheet One and Two totally finished (but not stuck down) and about four drawings for Prep Sheet Three done too.

Remember that all of you are doing very impressive projects and are working to the very best of your ability but many of you need to get more done so use this time to work hard and make brilliant drawings!

Mr Kilgariff's Sixth Years

The "Snow-Days" and the Christmas Holidays are an excellent opportunity to revise your **Irish Art History** from last year. Simple topics like **Newgrange**, **The Bronze Age** and **The Iron Age** can be revised and this will give you a real sense of control over your Art History. Study the topic, make simple study cards, practice your drawings and then do a sample essay. If you do this you will feel very confident going into the mocks and then the real exams. Good luck and enjoy the opportunity to look at all this excellent art!

Portfolio Students

The "Snow-Days" and the Christmas Holidays are an excellent chance to get a lot of good work done on your portfolio without interrupting your other studies. It is a golden chance to spend several hours at a time on your artwork.

Make a **timetable** for the holidays that is **ambitious** but **realistic** so that you feel a sense of control and achievement while you work. Always remember if you get stuck that you are the top art students in the school and that I have great belief in your skills and creativity - trust your own judgement because you are doing great work that is "on a roll" and only needs to be continued.

N.B. If the school is open on Wednesday or Thursday please bring in **EVERYTHING** so that I can see your whole portfolio from start to finish and we can identify the gaps that need to be worked on.

Ms. Enright has emailed an assignment to 3rd years, 5th years and 6th years. They have to check their email for the work.

Ms. Scully

Work and study plans given in class over the past few days.

Ms. R. McKenna

I assigned study plan and work to my 3rd and 6th years last Friday in class, they know themselves what they have to do.

Ms. McGuirk

I gave my class a list of things to do over the Christmas break, so they know what to do. Or do you need that list?

Ms. Briscoe

I have given my 3rd, 5th and 6th years work to cover them for the possibility that the school would be closed this week and the work is set from their exam papers. I also told the students to ensure that they had their papers at all times with them. However, in the event that they have forgotten the papers, all work is accessible on examinations.ie.

They also have a tailor made study plan for the Christmas holidays.

Ms. Conroy

I have already given my classes their work both for the next few days and also for the Christmas break. They are all fully aware of what's required.
