

From the Central Office to the Home,
TVC is Supplying the World with
Complete Broadband and
Telecommunications Infrastructure.

For half a century, TVC has provided the products and technical support that have helped build our country's communications infrastructure. Today, TVC serves the United States, Canada, Caribbean, Mexico, Central and South America.

Backed by close working relationships with top manufacturers and a deep understanding of the applications and technology behind the products we sell, TVC has proven itself to be a valued partner to both the broadband cable and telecommunications industries.

OFFERING INTEGRATED, MULTI-VENDOR SOLUTIONS FOR OUTSIDE PLANT

1
TVC's Vikimatic Division specializes in outside plant products for utility cable construction, and offers an expanding line of innovative products and accessories.

3
Tyco's line of Fiber Optic Splice Closures are available in multiple sizes, compatible with most cable types, in any environment.

5
OFS' innovative AllWave® Zero Water Peak fiber and totally dry Fortex™ DT Fiber Optic Cable help networks perform to their fullest potential.

7
CommScope designs and manufactures coaxial cables and conduit used throughout voice, video, and data networks.

9
Thomas & Betts LRC® Hard Line Connectors provide the quality connections needed for today's broadband digital networks.

2
MacLean Power Systems offers the most comprehensive product line of OSP Hardware from Strandvise® and Wirevise® connectors, Joslyn threaded fasteners and clamps, to Dixie anchor products.

4
Corning Cable System's vertical pedestals provide mounting facilities and security for taps, splitters, and line extenders.

6
Quazite's vast array of Polymer Concrete Underground Enclosures are UL Listed to the ANSI/SCTE 77 2002, "Specification for Underground Enclosures Integrity".

8
MaxCell textile innerduct maximizes the number of cables in conduit by placing more cables in new conduit and overriding cables in existing plant.
